Gates & Fences

Mulholland Brand

GATES DESIGN Collection

welcome

Our Story

Mulholland security was established in 1994. The company manufactured and installed iron and wood gates until 2017 when we partnered with an Israeli company to sell their aluminum gates and fences. In Europe and in the Middle East, aluminum gates and fences are the norm – thanks to the low maintenance, durability and beauty of the product.

The enthusiastic and excited reception of the aluminum gates and fences by our clients prompted us to build our manufacturing and painting facility locally, in the Los Angeles area. Here we are building beautiful customized aluminum products – gates, fences, railings and pergolas.

These products are powder coated for consistent and durable finish. We can even finish it with wood grain look! Modern, sleek and clean lines. High quality product. Heavy duty materials.

Please ask us for more information

Catalog FINALb.indd   2-3   1/6/20   10:22 PM

White Glass Gates & Fences

Modern designs. Suitable for a wide variety of home styles. Ready for installation. Maximum glass panel size 3'x4'.
Fences and gates are made of aluminum frame with white laminated glass inserts.
